

# Simple Analytics

This pdf is generated on May 9, 2021. Go to [the documentation page](#) for the most up-to-date version.

## Install Simple Analytics on other platforms

### Platform guides

We try to make installing Simple Analytics as simple as possible. We want privacy to be accessible as possible. We don't require the need of a developer if you use any of the following tools.

Read our guides on how to install Simple Analytics on:

- [Wordpress](#) (source on [GitHub](#))
- [Ghost](#)
- [CloudFlare](#) (source on [GitHub](#))
- [WIX](#)
- [Squarespace](#)
- [Webflow](#)
- [Jimdo Creator](#)
- [MailerLite](#)

Are you missing your favorite platform? [Let us know!](#) Happy to create a guide or plugin for you.

### Framework plugins

For most frameworks you can just include the script. We track page views in a magic way so you don't have to change your app code. [Read on how we do that](#). For some we got requests to create a plugin for them.

Get our official plugins for these frameworks:

- [Ruby on Rails](#) (source on [GitHub](#))
- [Gatsby](#) (source on [GitHub](#))
- [Vue](#) (source on [GitHub](#))
- [VuePress](#) (source on [GitHub](#))
- [Nuxt.js](#) (guide only)
- [Gridsome](#) (source on [GitHub](#))
- [Django](#) (source on [GitHub](#))
- [Analytics library](#) (source on [GitHub](#))

- [Hugo](#) (guide only)
- [Next.js](#) (sample app only)
