Simple Analytics

Install Simple Analytics with React

Most projects have the structure of `npx create-react-app my-app`. Let's follow that structure.

You don't need any dependency to install Simple Analytics.

1. Go to your HTML file: usually in `public/index.html`
2. Paste the embed code from how to add our script at the end of body of that file.
3. Save this file and you're done!

If you encounter issues, don't hesitate to contact us via our support channels.
