## Google Data Studio connector

Some customers use [Google Data Studio](#) for building reports. Because we care about privacy we don't store any personal data. That's why we are comfortable enough to let customers choose to connect with Data Studio while Google can't abuse the data of our customers or of their visitors.

This connector lets customers query data from the [API](#) of [Simple Analytics](#).

1. Go to [https://datastudio.google.com/datasources/create?connectorId=AKfyobyAybS-Aoau16yZWRV\\_dwqD-OfACQmFCzybiFGL93EUBdgiB128aa4S4JqMswWtRM-g](https://datastudio.google.com/datasources/create?connectorId=AKfyobyAybS-Aoau16yZWRV_dwqD-OfACQmFCzybiFGL93EUBdgiB128aa4S4JqMswWtRM-g)
2. Follow the steps in the video:
